

Freedom Taken Freedom Robbed Freedom Given Away Freedom Lost

Freedom Gone, O Well

By Chaplain America 8-15-2020

Freedom, and what does it mean to lose it? Most people think that the loss of freedom comes when someone goes to prison or jail. Still for those who are suffering with illnesses especially in dealing with American healthcare they know firsthand what it means to lose their freedom.

Children who get placed in time out or who get grounded know how it feels to have their freedom restricted. But there are many other more subtle ways that our rights and our freedoms are stolen in the dead of night and sadly now a days our rights and our freedoms are being stolen right before our eyes in the light of day.

Here are just a few examples of freedom being taken away from us a little bit at a time until one day we wake up and realized most of our freedom is gone.

The taxes and fees we are required to pay for just about everything these days, in all reality more taxes and fees translates to being less freedom for you and me. Just take a good hard look at your utility bills look at all the taxes and fees I tell you brother the Founding Fathers would have revolted against the federal government long ago.

Then there are license and permits needed to do a great many things everything from owning a car to owning a dog to going fishing and hunting, these license and permits and registration fees are an infringement on our rights and our liberties just take a look at what the Founding Fathers said about these things if you please.

And now with the internet, and our cell phones and all these fancy gadgets having the ability to track us and record everything we say, text and do I ask all of you are we still free? Sadly, it does not look so to me, You see my friends this is a direct attack on our freedoms and our personal privacy.

Then there is the freedom of assembly if you ask me that too has been attacked and stripped away all in the name of public safety. I ask you, have you seen the news? Churches forced to close their doors while retail stores are allowed to pack people in, I tell you America the early Colonies would definitely be up in arms.

America these are only but a few examples of freedom robbed and lost there are many other examples so many that it could fill a book. The bureaucrats and our puppet politicians have pushed regulation after regulation tax after tax, law after law, fees and license after license and fees on to WE THE PEOPLE that our rights and our freedoms are now buried under a mountain of regulation mud.

America the icing on the cake is the corona virus policies that have limited and even in some cases like my own and the patients were I serve our rights and our freedoms have been stolen away in the light of day and without a shot being fired in order to defend them which is our Constitutional responsibility as citizens of the United States of America.

And soon the final straw a poisonous vaccine is on the way and it will be used for taking yet more of our rights and freedoms away, you see my friends and mark my words soon we will be hearing the demands of the federal government and the CDC that in order for us to be able to work in certain areas of society we will be required to have a certificate of vaccination, yet another attack on our rights and our freedoms.

Freedom, if we are not willing to stand up and fight for it, if we are not willing to stand up and defend and strengthen and preserve it then there are those who will continue to weaken it, steal it and take it away from us right in the light of day until one day all of our rights and our freedoms will be lost for good. May God Bless You Amen John 14:27
